# GAYATHRI SWAMINATHAN

**Product Design Lead** · UX/UI · Design Leadership

gayathri.swaminathan05@gmail.com
+91 91219 92936 · Bangalore, India
Portfolio: gayathriswaminathan.com

I lead product design from defining the problem to shaping the final interaction. I use AI throughout my workflow to accelerate exploration, develop visuals and motion, and build working prototypes. I direct, test, and refine the output at every stage, keeping human judgment central to the craft. Twelve years in fashion shaped my visual sensibility and attention to detail.

## RECENT IMPACT CREATED

**2.8X**
**Booking conversion** after I rebuilt vet booking onto one screen; 18% fewer abandoned bookings.

**+12.2%**
**Pet parents adding to cart** daily after I redesigned how products are scanned and added.

**+5.65%**
**Average order value** in an A/B test of the cart I restructured around delivery and savings.

## EXPERIENCE

supertails

Supertails · Pet products and services
Bangalore · Oct 2021 to present

**2025** — **Design Lead, Product Design**
2025 to present

- Lead **product design at Supertails**, including Supertails+, the healthcare segment, whose first flows I designed as we launched our own clinics in Bangalore.
- Designed service journeys for neutering, tick fever and vaccination.
- Lead product design initiatives, benchmark competing platforms and bring **AI assisted practices** into the team's work for speed, exploration and quality.
- Lead a team of **in house and outsourced designers** and mentor interns, working closely with brand and marketing.

**2023** — **Senior Product Designer**
2023 to 2024

- A **major contributor to the end to end flow** of the Supertails app at its 2023 launch, and started leading design work.
- Concentrated on the app through 2024: simplified multi step booking journeys, refined content hierarchy and cut friction.

**2021** — **Product Designer**
Oct 2021 to 2022

- The **first product design hire** on the product and tech team.
- Single handedly owned every web project, from discovery and information architecture to high fidelity UI, prototypes and handoff.

## BEFORE SUPERTAILS

Rewards Plus

**UX/UI Designer, Product Design Consultant**
RewardsPlus · 2020 to 2021
Flows, wireframes, visual design and prototypes, plus style guidance and reusable interface elements.

**FASHION** — **Fashion Designer to Senior Fashion Designer**
2008 to 2020
Twelve years of research, concept, visual direction and production: where I learned to design for people and to own work end to end.

## ACHIEVEMENTS

**2026** Recognised for *Supertails Circle* at the company wide hackathon

**2022** Superstar of the Quarter, Supertails

**2010** First runner up, MTV *Making the Cut*, Season 2

**2008** Best Creation Award, graduation fashion show

## EDUCATION AND CERTIFICATIONS

**User Experience Design**
IIT Bombay, IDC School of Design
CEP course · Dec 2021 to May 2022
Contextual inquiry, personas and scenarios, ideation, heuristic evaluation, user tests and card sorts.

**User Experience Design**
Imagine XP Institute, Pune
2021

**B.Sc. Fashion and Apparel Design**
Army Institute of Fashion Design, Bangalore University
2008

## PRODUCT DESIGN

UX research · User flows · Information architecture · Wireframing · Prototyping · UI design · Design systems · Visual design · Usability · Design handoff · AI prototyping

## AI IN MY WORKFLOW

**BRIEF**
Write the brief AI builds from: flows, art direction, motion.

**EXPLORE**
Compare directions, art and motion in ChatGPT, Gemini, Higgsfield.

**BUILD**
Take designs to **working, coded prototypes** with Claude Code and Cursor.

**REVIEW**
Test and refine all AI output. The design calls stay mine.

## AI STACK

Claude Code · Cursor · ChatGPT · Gemini · Higgsfield

## DESIGN TOOLS

Figma · Adobe XD · Photoshop · Illustrator · InVision
